

SELECTED PUBLICATIONS AND PRESENTATIONS

Gillies, D.C., Lehoczky, S.L., Szofran, F.R., Watring, D.A., "Directional Solidification of Mercury Cadmium Telluride in Microgravity", TMS proceedings of the 10th International Symposium on Experimental Methods for Microgravity Materials Science, San Antonio, TX Feb. 15-19, 1998.

Roosz A., Watring D.A., Roosz T., Telesky I., and Toth L., "A New Technology to Produce Shaped Cast Single Crystals", Proceedings of 4th Decennial International Conference on Solidification Processing July 7-10, 1997, Sheffield, UK, Edited by J. Beach and H. Jones, Published by the Department of Engineering Materials University of Sheffield, UK

Volz M.P., Szofran F.R., Watring D.A., Gillies D.C., Su C-H., Lehoczky S.L., "Magnetic Damping of Convective Flows During Semiconductor Crystal Growth", in High Magnetic Fields: Applications, Generation, Materials, edited by H. J. Schneider-Muntau (World Scientific Publishing, Singapore) 51-77 (1997).

Gillies D.C., Lehoczky S.L., Szofran F.R., Watring D.A., Jerman G.A., and Alexander H.A., "Effect of Residual Accelerations during Microgravity Directional Solidification of Mercury Cadmium Telluride on the USMP-2 Mission," J. Crystal Growth 174 (1997) 101-107.

Ramachandran N. and Watring D.A., "Convection Damping by an Axial Magnetic Field During the Growth of HgCdTe by Vertical Bridgman Method-Thermal Effects," Proceedings 35th Aerospace Sciences Meeting and Exhibit, June 6-10, 1997 Reno, NV (AIAA 97-0450).

Szofran F., Benz K.W., Cobb S.D., Croll A., Dold P., Lehoczky S.L., Motakef S., Volz M.P., Watring D.A., "Magnetic Damping of Solid Solution Semiconductor Alloys," Proceedings of the Microgravity Materials Science Conference, Huntsville, AL., June 1996, NASA Conference Publication 3342 (1996) 499-504.

Lehoczky S.L., Szofran F., Gillies D.C., Watring D.A., "Growth of Solid Solution Single Crystals," Proceedings of the Microgravity Materials Science Conference, Huntsville, AL., June 1996, NASA Conference Publication 3342 (1996) 339-344.

Watring D.A., Roosz T.A., "The Universal Multizone Crystallizator, an International Cooperative Agreement", Proceedings of the Space Processing of Materials Symposium, Denver, CO., Aug. 9-14, 1996.

Watring D.A., Gillies D.C., Lehoczky S.L., and Szofran F.R., "Convective Influence on Radial Segregation During Unidirectional Solidification of the Binary Alloy, HgCdTe," Proceedings of the Space Processing of Materials Symposium, Denver, CO., Aug. 9-14, 1996.

Bune A.V., Gillies D.C., Watring D.A., Lehoczky S.L., "Modeling of Convection and Segregation During HgCdTe Solidification with Emphasis on Coupling with Crystal-Melt Interface Alteration," Proceedings of the Space Processing of Materials Symposium, Denver, CO., Aug. 9-14, 1996..

Gillies D.C., Lehoczky S.L., Szofran F.R., Watring D.A., Alexander H.A., and Jerman G.A., "Directional Solidification of Mercury Cadmium Telluride During the Second United States Microgravity Payload Mission (USMP-2)," Proceedings of the Space Processing of Materials Symposium, Denver, CO., Aug. 9-14, 1996.

Watring, D.A. and Lehoczky, S.L., "Magneto Hydrodynamic Damping of Convection During Vertical Bridgman-Stockbarger Growth of HgCdTe," J. Crystal Growth 167 (1996) 478-487.

Su C-H., Gillies D.C., Szofran F.R., Watring D.A. and Lehoczky S.L., "The Influence of Reduced Gravity on the Crystal Growth of Electronic Materials," Proceedings Strengthening Cooperation in the 21st Century (6th ISOC) Volume 91, Advances in the Astronautical Sciences, Marina Del Ray, CA, December 6-7 1995.

Wang, J-C, Watring, D.A., Gillies D.C., and Lehoczky S.L., "Interface Morphology Effects on Lateral Compositional Distribution for Magnetically Stabilized Growth of HgCdTe," Presented at the Ninth Annual Alabama Materials Research Conference, Birmingham, AL, September 26-27, 1995.

Roosz T., Watring, D.A., "The Universal Multizone Crystallizator," Presented at the Gordon Research Conference on Gravitational Effects in Physico-Chemical Systems, Henniker, NH, July 9-14, 1995.

Watring, D.A., "Magnetic Crystal Growth Systems at the Marshall Space Flight Center," Presented at the Gordon Research Conference on Gravitational Effects in Physico-Chemical Systems, Henniker, NH, July 9-14, 1995.

Watring D.A., Lehoczky S.L., Babcsan N., and Barczy P., "Thermal Characterization of the Universal Multizone Crystallizator," Presented at the Second International Conference on Solidification and Gravity Miskolc-Lillafured, Hungary, April 25-28, 1995.

Lehoczky, S.L., Cobb S., and Watring, D.A., "Space Station Furnace Facility," Presented Second International Conference on Solidification and Gravity Miskolc-Lillafured, Hungary, April 25-28, 1995.

Watring, D.A., "The Effects of Vertical Magnetic Fields on Segregation in HgCdTe," Materials Science Forum Vols. 215-216 (1996) 363-368

Lehoczky, S.L., Gillies, D.C., Szofran, F.R., Reeves, F.A., Sledd, J.D., Cole, M.J., Pendergrass, T.K., Watring, D.A., Coppens, C.R., LeCroy, J.E., and Popok, D., "Crystal Growth of HgCdTe in the AADS on the USMP-2 Mission," Proceedings AIAA 33rd Aerospace Sciences Meeting & Exhibit, Reno, NV, January 9-12, 1995.

Johnson, M.L. and Watring, D.A., "Sensor Detects Semiconductor Escaping from Ampoule," NASA Tech Briefs Vol. 19, No. 9, September 1994.

Watring, D.A. and Johnson, M.L., "Ampoule Failure Sensor Development for Semiconductor Crystal Growth Experiments," J. Crystal Growth 140 (1994) 41-44.

Watring, D.A., Motakef, S., "Cartridge Effects on Interface Morphology," Presented Gordon Research Conference on Gravitational Effects in Physico-Chemical Systems, Henniker, NH, July 8-13, 1993.

Watring, D.A., Motakef, S. and Matthiesen, D.H., "Influence of Containment Cartridge on Semiconductor Melt Growth in Space," Proceedings AIAA 30th Aerospace Sciences Meeting & Exhibit, Reno, NV, January 6-9, 1992.
